MAULI OLA FOUNDATION SPONSORS GOLF TOURNAMENT TO AID YOUNG ADULTS WITH CYSTIC FIBROSIS

DANA POINT, CA (July 17, 2008) - The Maui Ola Foundation, a public non-profit organization dedicated to assisting those with genetic diseases, is pleased to announce its upcoming golf tournament to aid children and young adults with Cystic Fibrosis. This event is dedicated to raising funds for research and future participatory events for these young patients. The event will be held on September 3rd at 1:00 p.m. The venue is the impressive Monarch Beach and Golf Links in Dana Point, CA. Lunch and dinner will be provided at the event, along with a long drive hole, closest to the pin and putting contest. The event will also host a silent auction with raffle prizes.

For this event, MOF is teaming up with Ambry Genetics in a united effort to further the quest for enhanced treatments. Cystic Fibrosis is an inherited disease affecting the lungs by blocking airways, leading to serious lung problems. Extensive clinical trials have clarified that inhaling saltwater mist has a powerful effect on the lungs; re-hydration of the lungs allows CF patients to more easily eliminate the damaging mucus.

Maui Ola Foundation, founded in 2008, promotes education, awareness and research of genetic diseases. MOF has dedicated its mission to support programs for kids and adults with life-threatening illnesses. The Foundation also sponsors surf activities which have been found to have a meaningful positive impact on these children; the exercise and fun involved in the activity encourage children and young adults to utilize natural therapies, thereby decreasing their reliance on medication treatments and living longer, more enjoyable lives.

James Dunlop, founder of Maui Ola Foundation and co-founder/ Operations Manager of Ambry Genetics, consistently seeks innovative ways to support the needs of those affected by Cystic Fibrosis. His goal in this effort is to "bring the joy of surfing to those who have never had the opportunity to experience the freedom and confidence while improving their challenges in leading a healthy life."

Registration information is located at <http://www.mauliola.org/fevent.html>. Additional information on ways to support Maui Ola Foundation may be accessed on their website at www.mauliola.org.
